BALDWIN

NURSERY — Bridgman, Michigan

Index

6241

New BRILLIANT Patent Pending Everbearing Strawberry

Flavor — rich, tangy, fresh strawberry flavor — something many everbearers do not have.

Enormously Productive — 7,000 quarts per acre.

Quick to Bear — first ripe berries a few weeks after planting.

Size and Color — large to very large, roundish shape with *Brilliant* red color.

Plant — Average size; exceptionally heavy plant maker that produces a good crop in most any soil or weather; very hardy — originated in Michigan. (Further description and prices on page 9.)

POSTPAID PRICES:

25 FOR \$3.25; 50 FOR \$5.75; 100 FOR \$9.95.

ALMEY Flowering Crab

BALDWIN'S Gorgeously Beautiful — *Tuberous Rooted Begonias*

Double, Camellia-like Flowers, Easy to Grow, Indoors and Out
Planted this spring these better bulbs of camellia-flowered Begonias will bloom this summer over a long season with a profusion of delicately colored, satiny, wax-like flowers. Especially adapted to shady places — in fact, prefer partial shade. Can be planted in pots for outdoor bloom in summer or indoors in winter. Also for outdoor mass planting. Perfect for shaded window boxes.

Ours are highest quality, selected bulbs to flower this summer. Six Fine Colors — PINK, DARK RED, YELLOW, WHITE, SCARLET, APRICOT.

BEGONIAS

Pink Weeping Wisteria

This pink wisteria is pleasantly different from the usual purple flowering vine. A new grafted type from selected vines that is sure to bloom. A most hardy, vigorous grower to cover arbors, trellises, porches. Covered with a profusion of gracefully hanging pink flowers during the summer.

**2 yr. No. 1 plants, grown from blooming wood —
Each \$1.10; 2 for \$1.95**

Purple Wisteria

This is the old fashioned favorite with long, fragrant blooms. Grows readily in all locations and increases in size and number of blooms year after year.

2 yr. No. 1 plants from blooming wood, — Each 75c; 2 for \$1.35

GIANT, SHOWY, DAHLIAS

The varieties in this collection are selected from more recent new introductions and regularly sell at many times this price. Here you have a wide range of color. Plump, strong tubers make fine flowers this summer. You will be proud of these beautiful, perfect blooms.

**30c each
All 6 For
\$1.44**

AUTUMN GLOW

A new dahlia, seedling of Jersey Beauty, but deeper rose with undertones of gold and copper.

ROSE GLORY

Charming light rose-lavender. Large round blooms.

RED DRAGON

Huge, giant size, deep rich red, long petaled blooms. Flowers over a long season.

MICHIGAN WHITE

Large, pure white flowers. Begins blooming in July. One of the best white dahlias.

YELLOW KING

Large clear lemon yellow. Blooms from August to frost.

MRS. De Ver WARNER

Large, round, quill-type blooms. Lovely, rose-lavender.

MIXED DAHLIAS

BALDWIN'S Guarantee

For 63 years the Baldwins have backed up this guarantee to the entire satisfaction of their thousands of customers everywhere. We guarantee every plant, tree, shrub or bulb sold by us to be first class, to be free from injurious disease or insects, to be in good growing condition on arrival at destination when shipped by express or mail, and will, at our option, either replace free of charge or refund the purchase price paid of any that is not, when we are notified within five days of receipt of stock. We further guarantee our nursery stock to be true-to-name and will, on proper proof, at our option, either replace free of charge or refund the purchase price paid of any stock that proves untrue to name. We are, in any case, not liable for more than the purchase price of stock ordered.

All contracts and agreements are made subject to flood, drought, fire, frost, crop failure, or other causes beyond our control. Our Michigan Certificate of Nursery Inspection is attached to every shipment.

O. A. D. Baldwin

G. W. R. Baldwin

Dear Friends:

When you think about planting remember two things: —

1. Just a few shrubs and flowers add much to your enjoyment of your home — and increase its value many times their small cost.
2. Likewise, a few berry plants and fruit trees, even in a small space, will give you a plentiful supply of fresh, home-grown fruit — and save you many dollars.

With this 1952 book we bring you a much wider selection of fine ornamental shrubs and trees, choice perennials and roses. In berry plants and fruit trees you will find our usual good number of worthwhile varieties, both old and new.

As always you can depend on us to carefully select and ship what you want when you want it, and see that you are satisfied in every way. Many thanks for your business, past and future.

Order early to be sure of getting just what you want.

Sincerely yours,

O. A. D. BALDWIN NURSERY

PLEASE NOTE

Read "Instructions for Ordering" on back of order blank. They save time and avoid errors.

All prices F.O.B. Bridgman, Michigan, and all transportation charges are to be paid by the customer (except where noted).

IT PAYS!

**TO BUY DIRECT
FROM THE GROWER**

When you buy by mail direct from the nursery you are dealing with the grower. He best knows how to grow, dig, pack and ship. This means you will get no storage or store-held stock, and that your order will be shipped quickly and will reach you in the finest possible planting condition. All this is most important to you because you want only stock that is most sure to give entire satisfaction and bring you the fruit, flowers and beauty that you expect from your planting.

Your satisfaction with such stock is bound to be greater.

BALDWIN'S

Superior Strawberries

PREMIER

Premier The Great Commercial Strawberry

PREMIER is one of the most profitable strawberry varieties grown today. It puts a big crop of fine appearing berries on the market first every time and does it in spite of frosts that often kill other varieties. These two facts are PREMIER'S greatest points of superiority as a dependable money-maker. PREMIER eliminates crop failures, and by ripening five days to a week earlier than any other kind, it never fails to command high prices. Always produces its good crops on a wide range of soils and climates throughout the country.

Actually millions more Premier plants have been sold the past few years than any other kind. Premier continues to be

widely planted in larger quantities than any other early berry. Growers know that PREMIER is an unfailing money-maker every year. Consumers demand it. You will need to grow PREMIER—and plenty of them—to be in the berry business profitably.

WHY PREMIER IS BETTER

1. First to ripen.
2. Remarkably frost resistant.
3. Long fruiting season.
4. Unusually large crops.
5. Size above average.
6. Bright, glossy, solid color.
7. Uniform, attractive shape.
8. Firm berry, excellent shipper.
9. Buyers pay a big premium for Premier.

EARLIEST OF ALL— FROST PROOF

If you want to make more money, plant Premier this spring!

Order at once so we can reserve yours. Our plants are guaranteed true-to-name, healthy and vigorous. You can depend on them to make money.

This Valuable Planting Guide FREE!

To every customer who sends us an order of \$1.50 or more by May 1st, 1952, we will send this Planting Guide if you request it with your order.

20-pages packed with practical information on planting, pruning, fertilizing, spraying of most every kind of nursery stock. It tells the story in pictures—you cannot go wrong. Regular price: 10c.

ICEBERG WHITE BLACKBERRY

This is a really worthwhile blackberry. When fully ripe the berries are creamy white and of good sweet flavor. Easy to grow as any blackberry and produces plenty of its novel white berries. Put a few plants in the garden and surprise the neighbors.

Prices: 1 yr. No. 1 – Each 15c; 3 for 40c; 6 for 70c; 12 for \$1.10; 25 for \$2.00.

2-yr. Bearing Age – Each 25c; 3 for 65c; 6 for \$1.15; 12 for \$1.95.

DON'T MISS THIS WORTHWHILE NOVELTY

ROBINSON

The Modern Main Crop Berry

Originated in this famous Michigan strawberry section, Robinson has fully proven its reputation as one of the best strawberry varieties. Robinson has been called a Super Berry and that was saying a lot, but by the way it has proven itself, it was not saying too much. A strong, vigorous grower, it produces an unbelievable number of new plants in most any soil. This insures a big crop and the berries are above average in size because each plant usually has only one fruit stem and has lots of vitality to produce these big berries.

Early Season—Quality—Color—Firmness—Size

Robinson berries are finest flavor, good glossy red color, big in size and firm. All these points make it an ideal berry for marketing nearby or far away at the top price, and they also make a berry that is just what you want in your garden to eat and can.

Planting Genuine Robinson Insures A Profitable Berry Business

SENATOR DUNLAP

The Old Reliable Money-Maker

Senator Dunlap (or Dr. Burrill) is probably better known throughout the country than any other strawberry. It has the reputation of producing full crops in a wider range of soil and climate than any other variety. No wonder growers in nearly every state in the Union order more of this old reliable berry every year. Today Senator Dunlap is one of the three or four strawberries that buyers know and ask for throughout the country.

Many canning factories want nothing but Senator Dunlap and contract for thousands of cases yearly. They know it always holds its shape and rich color long after canning—and that the flavor lasts. Uniform berries of glossy, dark red. Last year we sold out of Dunlap early and the demand is equally heavy this year. We have a good supply but urge you to order yours early. Ripens Mid-Early.

DUNLAP

All Our Strawberry Varieties are Self-fertile.

Catskill

Big Midseason Berry

It is only once in awhile that a new variety proves so satisfactory in every way and so profitable as Catskill has done. Its biggest feature is its enormous crops of big, fine, bright scarlet, green-capped berries. Picking begins just after the early kinds and Catskill berries are of great size and firmness to the last. Plants are unusually strong, hardy, healthy little affected by diseases and will produce their great yields in all soils and seasons. With a good early berry and Catskill for midseason to late, you have a combination for top prices over the best of the strawberry season. We recommend Catskill fully.

Enormous Crops of Fine, Big Berries

For home garden, Catskill is ideal because its fine flavor, rich color and large size are just right for canning and preserving or fresh for table use. *New York Experiment Station, the originator, says:— "Catskill is notable for being very large and very productive. Plants are vigorous and free from leaf-spot. Ripens later than Premier and is of better quality as well as being larger. Much more productive than Dorsett and Fairfax."*

50 Sparkle

"New Sparkle"

Vigorous Growing, Disease Free

North of the Ohio River, Sparkle has proven a firm, good-shipping, money-making berry. Resistance to red-stele disease, a heavy plant maker and notably hardy in colder climates guarantees consistent profitable late season crops after earlier varieties are gone. Especially delicious quick-frozen in locker plants or home freezers — keeping its color, shape and fine flavor.

Bears Midseason to Late

Rich, glossy-red, smooth berries with big green caps actually sparkle. They make a beautiful box of fruit. Their flavor is as good as their appearance, equal to Fairland, better than Premier. Above average size and remarkably uniform oval shape and smooth skin.

SPARKLE

New Temple

Fully Red-Stele Resistant

Early, Productive, Amazingly Vigorous

Wherever red-stele disease is a problem, the new TEMPLE variety is the one to plant because it is fully resistant to this disease. Also, it has proven largely immune to other strawberry troubles. When cold and frost damaged other varieties, there was no injury to TEMPLE. This is the general report of the U. S. D. A., on this new berry and you can see at once how valuable an addition it is to strawberry growing—whether for home or market.

Large, Firm, Bright Red, Sweet

Originated in 1938 by the U. S. Dept. of Agriculture, TEMPLE was selected from many thousand seedlings, because it is fully resistant to red-stele and at the same time has the qualities necessary for a successful commercial berry. It is an exceptionally vigorous grower, produces good crops early in the season and the fruit is firm for long distant shipment. Large, smooth, bright red sweet flavored berries with large green caps.

TEMPLE promises to be an exceptionally valuable variety and we have made the price low so that everyone can get a good planting this spring.

New Fairland

A Better Strawberry For Home — For Market

This new variety was released by the U. S. Dept. of Agriculture for general introduction in 1949 after 10 years of testing. The Department says of FAIRLAND:

1. A new early Red-Stele resistant strawberry for northern states.
2. Ripens 2 to 6 days after Premier.
3. As productive as Premier, with firmer, large light bright red berries.
4. Best adapted to those sections where Premier is grown."

A New Berry For Premier Growing Sections

YOU CAN DEPEND ON FAIRLAND FOR REGULAR CROPS

Commercially FAIRLAND has proven a good shipper and profitable market berry—equal to Premier. This, and the fact that it is entirely Red-Stele resistant, and does particularly well in northern states makes certain that FAIRLAND will be a widely planted leading commercial berry. FAIRLAND berries are unusually uniform in shape, attractive in appearance and excellent in flavor. A fine, dependable home-garden berry. You will want to plant FAIRLAND this spring.

BALDWIN'S Everbearers

Minnesota 1166

The University Development

Minnesota 1166 (Evermore) is a heavy-yielding Everbearer. This past season the sturdy plants were loaded with great berries from July until into November. Berries are rich, solid, dark red all the way through. Large size, with a rich, sweet, mild flavor. Very good plant maker—better than Mastodon and about like Gem. Originated by the Minnesota Expt. Station, this everbearer is one of the hardiest berries grown.

Easy to Grow in Any Garden

If you plant Minnesota 1166 this spring you can enjoy fresh Strawberries from your own garden this summer. They are delicious, healthful and economical—summertime's most delicious fruit. Plants are in big demand because of its outstanding performance, so order yours early.

MINNESOTA 1166 PRICES

50 for	2.35	500 for	14.25
100 for	3.95	1000 for	27.50
200 for	7.25		

SUPERFECTION

This new, widely advertised everbearer is a hardy vigorous grower under Michigan winters. Berries are large, round, firm, bright red. Good for market and home use, too. Ours are carefully grown, well rooted plants.

Prices same as Streamliner.

MINNESOTA 1166

STREAMLINER PRICES

25 for	\$ 1.75	300 for	\$11.75
50 for	2.95	500 for	18.50
100 for	4.95	1000 for	34.95
200 for	9.45		

STREAMLINER

Streamliner Sensational Everbearer

STREAMLINER is as new and modern as its name. New because it has been on the market but a few years and modern because it has all these good points we want in an everbearing strawberry today:

- Delicious, very sweet, real strawberry flavor.
- Very hardy, productive plant.
- Rich, radiant, solid red color all the way thru.
- Excellent for canning and freezing.

You will want to be among the first in your neighborhood to have this fine Everbearer—a really wonderful all around strawberry. Strawberries are one of the finest frozen fruits and this new berry is especially delicious because it is naturally so sweet.

Not a heavy plant maker, but makes enough to produce plenty of fruit. Berries are round in shape and firm in texture—presenting a fine appearance on the market. You will want to get started with STREAMLINER this spring—have a full crop this summer and fall.

GEM

Gem

**The Dependable
Everbearer**

Make Money This Fall With Gem

Gem is the everbearer fruit growers have been looking for, because, unlike all other everbearers, it is an excellent plant maker on good or poor soils and in wet or dry seasons. This fact means that it can be depended on for good crops every year. Here we have a really fine fall berry of good size, fine flavor and unusual firmness.

Productiveness—Flavor—Firmness

- 1. Productiveness.** GEM makes so many more plants than other everbearers that it produces many more berries.
- 2. Flavor.** A true strawberry flavor—something most everbearers don't have.
- 3. Firmness.** Remarkably firm—only everbearer that reaches market in really first class shape.
- 4. Profits.** Because of size, firmness and sure crops—good profits are certain.

MICHIGAN EXP. STATION SAYS:

"Gem is certainly a wonder as far as plant making is concerned and it certainly bears well." You can plant Gem with full confidence of a full fall crop and good profits.

"Brilliant" Everbearer

7000 Quarts from One Acre

Last July when we first saw a field of BRILLIANT in full fruit we could hardly believe that any Everbearing Strawberry could possibly make those solid rows and that enormous crop of beautiful berries. There were berries on new runners as well as on mother plants. BRILLIANT surpasses any other Everbearer, old or new, that we have seen. 7,000 quarts per acre is the official record. You can't help but make money from large or small plantings with such production.

IDEAL FOR THE HOME GARDEN

By planting BRILLIANT you can be sure of a real good crop of fine fresh strawberries over a long season from July to frost. Your garden space planted to this variety will not be wasted. These bright berries freeze wonderfully well and retain their rich, tangy flavor.

BRILLIANT is another product of F. J. Keplinger of Michigan who originated the Gem Everbearing, a favorite for years. Don't delay ordering BRILLIANT for your planting this spring. You will be more than satisfied.

BALDWIN'S *Rhubarb*

Best for Home or Market

Macdonald Crimson →

This new red variety is the best of all. Yields heavily from spring right through to late summer because it never goes to seed. Will last for years. Produces unusually large attractive crimson stalks and the good thing is that they are very tender and juicy (skin and all); not tough or stringy as most large stalks are. If everyone knew this grand new red rhubarb no other kind would be planted. It is so much better in every way—large size, rich red color and best of all a deliciously mild flavor. Ours are strong division roots—will make fine large stalks this summer.

Price: Each 55c; 3 for \$1.50; 6 for \$2.75; 12 for \$5.25; 25 for \$9.75.

Canada Red

A new red rhubarb in top place for appetizing red color and delicious flavor. A vigorous, hardy grower its long tender stalks rich red right through. Milder flavored than most kinds. Many consider it the best rhubarb yet introduced. Plant a few roots and enjoy it. Grows easily in any good garden soil.

Price: Each 75c; 3 for \$1.95; 6 for \$3.50; 12 for \$6.25; 25 for \$11.25.

Myatts Victoria

Victoria is the preferred market variety and is generally planted. Good for winter forcing, too, when prices are highest. Attractive pink stalk, delicious mild flavor. This pink stalk, tender variety is preferred and brings best prices. Our stock is carefully grown from guaranteed tested seed. Transplants easily; produces abundantly.

1-yr., ½ to 1 Inch—Each 12c; 6 for 55c; 12 for \$1.00;
25 for \$1.60; 50 for \$2.95; 100 for \$4.95.

VICTORIA CLUMPS

Large 2-year-olds, ready to produce this summer. Just the thing to get Rhubarb started quickly in your garden.

Prices—Each 25c; 3 for 65c; 6 for \$1.20;
12 for \$1.95.

BALDWIN'S *Easy-to-grow Asparagus*

Asparagus is easy to grow and you can make big profits from a small space. 50 to 150 plants will supply this delicious food for the family. A bed lasts for 10 to 15 years, and you can depend on heavy regular crops from our roots. It is most important that you get strong, healthy true-to-name plants. We grow them by the thousands from guaranteed tested seed on special soil to give you the best planting stock.

← *Mary Washington*

Developed and recommended by U. S. Dept. of Agriculture. Heavy yielding, pedigreed strain immune to rust; grows rapidly and produces uniformly tender shoots of excellent table quality.

Now that canning companies have found how to can asparagus and retain all its delicious flavor and healthful food qualities they are contracting for greater supplies every year. At the same time there is a rapidly increasing demand from grocery stores and commission merchants for fresh asparagus during the summer season.

\$4,000.00 from 4 acres—That is what one local grower made from his field of asparagus, and shows what can be done with the present day asparagus market. 5,000 roots plant an acre. Here the cutting season begins in May, before any other cash crop.

There is a steady demand with average prices of 7 to 10 cents per pound. You can make money growing asparagus now!

Paradise Asparagus

Bears A Big Crop in Only One Year

That tells the story of this remarkable new Asparagus. It comes into full production quickly—no need to wait 2 or 3 years to begin cutting. PARADISE was bred and developed to do just that. It is rust resistant and produces great, wonderful appearing stalks of delicious flavor. Paradise is a most excellent asparagus for home use and profitable market sale. We are glad to offer this new, early producing variety at these low prices:

How many times have you wanted Horseradish roots or leaves for your canning and kitchen use! It is easy to grow and a few of these roots multiply rapidly and will make all you need. Plant in any out-of-the-way corner. A fresh, home grown supply is much better than what you buy. The cost is little and once started Horseradish lasts for years. Prices: Big Crowns—3 for 35c 6 for 60c; 12 for \$1.00; 25 for \$1.95.

CUMBERLAND

BALDWIN'S *Black*

Early Dundee

A Better Early Blackcap

See if you don't think this will make you a better early black raspberry! After 8 years in commercial planting here, we find these good things about Dundee:-

1. Very heavy bearer — much heavier than Cumberland.
2. A rich, juicy, good-tasting berry.
3. Berries larger than any other variety.
4. Berries do not crumble and always pick easily.
5. Color is uniformly a bright, glossy black — no red colored or mishapen berries
6. Ripens early (about with Logan) 2 weeks before Cumberland.
7. Brings top prices because of early ripening and fine appearance.
8. Equally good crops in wet and dry seasons.
9. Originated by New York Experiment Station.

Dundee is a good variety here and we believe it will be for you.

Cumberland

The Leading Commercial Variety

Clear money above all expense is what you want and you can depend on our heavy producing, vigorous plants for it. Cumberland is still the leading berry in the plantings of commercial fruit growers everywhere. Government Experiment stations have found none that promise to be a better money-maker.

Low Prices for Dependable Certified Plants

If you grow Black Raspberries at all you need this great mid-season berry for a complete planting; it is hardy, healthy and produces its big paying crops of fine berries in every fruit growing section. Plants vigorous and very productive; thrive everywhere. Berries large, firm, jet black with a delicious flavor. Wonderful long distance shippers — attractive appearance — always command good prices. Guaranteed to please you.

New Logan

**Most Widely Planted
Early Blackcap**

This early variety has all the good points other early berries have lacked. Berries are good size, do not crumble (unusually firm), do not dry up, hold a glossy black color and have a deliciously sweet flavor. Logan is a fine home garden berry. Bears heavily, maturing most of its crop before Cumberland begins, and so gets the best of the early high prices. Canners like its rich flavor and uniform berries.

Logan is recommended by Michigan and Ohio Experiment Stations and is an entirely satisfactory commercial berry in the great fruit sections of these states. Remarkably free from and resistant to disease; a strong grower, throwing out plenty of fruit canes.

We recommend Logan for its earliness, its excellent quality, its firmness and color for market. Plant Logan and you will be repaid. Our price is low for this fine Early Raspberry.

NEW LOGAN

RASPBERRIES

Make More Money

Black Raspberries have regularly been bringing better than average returns every year. Fruit canneries always contract for a good part of the crop and this insures better prices all around. These are proven, profitable varieties. Michigan grown, double inspected raspberry plants are recognized throughout the country as the best. Our soil is especially adapted to produce sturdy, well rooted quick growing plants. Such first class plants, disease-free, are necessary for satisfactory crops of berries.

Morrison

The Big Profitable Late Berry

Here is a really better late Black Raspberry for both home and market use. Ripens about one week after Cumberland. Morrison has now been widely tested from Pennsylvania to Michigan, and has proven head and shoulders above other varieties in most every way. Commercial growers say: "Largest blackcap I have seen." "Practically disease free." "Larger and firmer than Cumberland. Does not crumble." "Holds its size to the last of the picking season." "For two years it has brought more than other varieties on the Pittsburgh market." One third larger than any other blackcap.

The big bushes are exceptionally vigorous, hardy growers; long lived (some producing well after 12 years), and are practically disease free. Morrison berries are high flavor, very firm, juicy, not so seedy, and the size averages almost an inch across. Every one is a brilliant, glossy black. This bright appearance holds up longer in grocery and market, outyield other varieties and **MAKE MORE MONEY FOR THE GROWER!**

Bristol

For the Home Garden

This is a top quality blackcap that is widely adapted in all raspberry sections. One of the finest for home gardens everywhere. Bears heavy crops of large, glossy, fine-appearing berries. Its resistance to usual raspberry diseases means a long lived planting. Bristol is well worth much wider planting for both home and commercial use. We have a reasonably good supply of first class plants but you should order early.

Price — 12 for \$1.10; 25 for \$2.00; 50 for \$3.45; 100 for \$6.25; 200 for \$11.00; 300 for \$14.85; 500 for \$24.50.

BRISTOL

Sodus Purple Raspberry

The Best for Jam and Jelly

If you have not eaten purple raspberries both fresh and canned, you have a delightful experience coming, for these berries have a color, aroma and fine flavor that call forth that "more" taste. They are something deliciously different. Its distinctive flavor and great size fill every need for canning and pies.

**The Best
Purple
Raspberry
Today**

Sodus Has Size, Color and Quality

This better purple cap is a money-maker because of its great size, attractive color, extra firmness and exceptionally heavy crops. Giant, bright purple berries, do not crumble, borne in great clusters on every branch. Flavor good a blend of red and black raspberry.

SODUS is a rapid grower with great strong canes to carry its big load of fine fruit. So far it has shown almost complete freedom from mosaic; plant safely anywhere. Had no winter damage when others were frozen. Stands dry weather unusually well.

Sodus is the best of all purple sorts generally planted today. A good sized, fine flavored purple raspberry with attractive appearance will make money. SODUS is such a berry and deserves extensive planting for commercial use. Plant Sodus for a really good purple.

Blackberries

New EBONY KING

Giant Size — Sugar Sweet Flavor

A new and better blackberry has long been needed and Ebony King "fills the bill" in every way. Most important, every plant produces full size, delicious berries—there are no small berries or wild type plants, as sometimes happens with older varieties. Ebony King has been fully tested and here is what it is:-

1. Larger than average—a giant size berry.
2. Practically coreless—no bitter center.
3. Ripens very early—10 to 14 days before Eldorado.
4. Yields very heavily—average was 1 quart per plant on young bushes.
5. Exceptionally delicious sweet flavor—"the Sugar-Sweet Blackberry."

You have not known how really good blackberries can be until you have tasted Ebony King. Plant supply of this variety is limited, so be sure to order yours at once. It is new and worthwhile.

LUCRETIA

Lucretia Dewberry

MAKES A PROFIT ON LIGHT SOILS

Lucretia is the standard commercial dewberry. No other variety is more widely planted or more generally satisfactory. Vigorous growing, heavy bearing — especially productive on light soils that otherwise would not pay.

Dewberries are in favor because they are profitable and because they are delicious for home use. Market price averages 20 per cent more than blackberries. Ripen a week to ten days before the earliest ordinary blackberries.

Latham Red Raspberry

The Most Profitable Late Red

Latham has definitely proved to be the best red raspberry money-maker in every fruit section of the country. Each year for the past five years we sold more Latham plants than all other red varieties put together.

For general planting in all sections, Latham is the best because this hardy, vigorous grower can be depended upon for big annual crops of finest looking berries. Fruit buyers on every market pay a premium for Latham's bright color, firmness and long keeping quality. These things and its most delicious flavor make it equally desirable for home gardens.

Hardy, Productive, Dependable

Hardy and very productive—far out-yielding older kinds, it ripens from midseason to late. We wish we could convince you what a truly fine berry LATHAM is in every way. If you have grown it you already know. Berries are all above average size, bright red, and make the most attractive appearance of any red variety; the flavor is of the finest. You will make no mistake in planting all you can.

Latham Is Still the Best Fruit Everywhere for Profit

FOR CANNING—Jams and Jellies—Unusually rich color that does not fade, and what a wonderfully delicious, true, fresh raspberry flavor! The ideal berry for canning uses.

GOVERNMENT EXPERIMENT STATIONS—Recent reports from leading fruit states say that Latham is the best and most profitable berry for its season and highly recommend it for planting.

LATHAM

Taylor The Best Giant Late Red

Berries larger than any other, except Newburgh, uniform and pointed in shape, very firm (will not crumble when picking) bright snappy red color—all qualities that make TAYLOR an ideal shipper, arriving in best appearance to bring highest prices. Its large size holds up well over a very long season. Its deliciously sweet flavor and thick juicy flesh make it just right for eating, canning and preserving.

An unusually upright strong-caned grower, makes picking easy and keeps the fruit well off the ground. Exceptionally hardy under severe weather conditions. Crops unusually heavy. Originated by New York Experiment Station; one of its best. TAYLOR is really fine.

The New Sunrise Red Raspberry

Extra Early Extra Hardy Extra Quality Extra Flavor

SUNRISE comes to you fully tested and proven as a better flavored, better quality berry for home use and an earlier ripening, hardier growing, more profitable variety for market. Here is its story — judge for yourself.

1. *Originated by U. S. Dept. of Agri. in 1923; carefully tested by them since and they say—"Of most importance from the standpoint of the practical grower perhaps, are the hardiness and resistance to disease of the plants, the earliness and larger size of berry as compared with St. Regis and the better texture and quality as compared with Latham."*
2. *Earliness—N. J. Expt. Station says: "The Special value of SUNRISE is its earliness. This year it was ready for first picking June 8, Chief on June 19,*

Latham June 23. In most cases SUNRISE will continue to produce some fruit even after Latham is practically finished."

3. *Hardiness—U. S. D. A. says: "SUNRISE has shown resistance to low temperatures in mid winter at New Jersey with practically no injury, whereas Latham and some other varieties were severely injured."*
4. *Flavor and Quality—U. S. D. A. says: "More attractive than Latham—color is bright, turns dark red on ripening, berries pick easily. They are firm, fine textured, juicy, non-crumble, mild in flavor, better quality."*

From these statements you can see what a superior variety in every way SUNRISE is. Don't wait longer to plant this new fine berry.

New WILLAMETTE RED

A Big Berry — Proving Fine For Home or Market

This fine new berry originated in Oregon and is a proven, hardy, productive grower here and in New York. Berries are exceptionally large, dark red, pointed, medium acid flavor, and very firm. Its size, color and flavor make Willamette excellent for canning, freezing, and for fresh table use. Its large size and heavy crops and good appearance make it profitable for market. Ripens midseason. We believe Willamette is a most promising new red raspberry and should be more widely grown in the Midwest.

Indian Summer

New Everbearing

RED RASPBERRY

Here is a distinctly new type of everbearer, unlike any older kind. "Marvelous" justly describes Indian Summer. The quantity, size and quality of the berries it produces in September, October and November are truly marvelous because they are so far superior to any other everbearer. With such a berry you can make worth-while profits from the high prices always paid for off-season fruit. Makes a good early crop in the regular season.

The Best Everbearing Red

Berries are uniform, rich red, thimble-shaped, large and juicy; flavor a true, tart, delicious raspberry. A thrifty grower and heavy producer. You have never seen any fall berries as good in every way as INDIAN SUMMER. **Be sure to plant this spring.**

PIXWELL GOOSEBERRY

Larger Berries — Easier to Pick

An absolutely hardy, newer Gooseberry from North Dakota Exp. Station. Large, vigorous growing bushes carry heavy crops. It "picks well" because the berries hang on stems about 2 inches below the branches. Berries are large, oval, greenish-yellow to pink when ripe. For a plentiful supply of gooseberries for pies, jams and canning, put a few Pixwell bushes in your garden.

NOTE: Currants and Gooseberries are shipped to the following states only: Colo., Ill., Ind., Ia., Kans., Ky., Mich., Mo., Nebr., N. Dak., Okla., S. Dak., Tex.

PIXWELL

DWARF FRUIT TREES

Full Size Fruit on Dwarf Trees

Many leading garden magazines and landscape architects point out the advantages of planting Dwarf Fruit Trees on the small home place. They are just the right thing because they make plenty of fruit on small space possible. At the same time they are ideal as beautiful ornamental trees.

Have More Fruit in Small Space

These little, sturdy, quick growing trees usually begin bearing the second or third year after planting. Their fruit is full size and as fine in every way as that grown on standard trees. Rarely grow more than 15 feet high and can be planted as close as 15 feet apart. Ours are well branched, well rooted, 2 year old trees ready to make quick growth and good crops of full sized fruit.

Red Lake Currant

Larger Berries—Heavier Bearing

This tells why the New Red Lake is the finest of all red currants. It is taking the place of such good kinds as Wilder and Perfection. Big, bright red berries on long stems are easy to pick. Bushes are hardy, vigorous, very productive. A mid-season variety continuing over a long season, it is a profitable commercial sort.

On the table, what is better than rich red Currant Jelly? Red Lake's rich, delicious flavor makes fine jell. With 3 to 6 bushes in your garden you will have plenty.

PURPLE LEAF PLUM

Purple Leaf Plum

Prunus Cistena

Most brilliant low growing, tree-like shrub. Beginning in May with single, delicate, pink blossoms and followed by rich, red leaves lasting throughout the summer, turning purple-bronze in the fall. Its glossy, brilliant leaves and low, compact growth make this an ideal showy ornamental.

\$1²⁵ Big 3 to 4 ft. trees
Each, 2 for \$2.30

Red Leaf Peach

COLORFUL ORNAMENTAL TREE

Full Crops of Sweet Peaches

Here is a red leaved ornamental tree that really stays red all summer—bright red in spring turning to deep maroon by fall. Brilliantly beautiful all season long. Its deep peach-pink blossoms against its red leaves make a striking picture.

Produces a full crop of round deliciously sweet, white fleshed fruit. Just the right size for pickling, 1½ inches in diameter. Late ripening season.

The New Red Leaf Peach is a new ornamental tree of outstanding beauty and a peach tree whose fruit is delicious.

SPECIAL PRICE—Sturdy, well grown, 3½ to 4½ ft. trees—\$1.40 each; 2 for \$2.45; 4 for \$4.45.

RED FLOWERING DOGWOOD

MAGNOLIA SOULANGEANA

The favorite variety of this exquisite southern flower that is hardy for northern planting. Large, bell shaped, waxy blossoms, 4 to 6 inches across of delicate pink shading to creamy white. Each branch is tipped with its glossy bloom just before the leaves come out, making a strikingly beautiful picture in the early spring. Blooms when small, usually the second season. Grows to 8 to 10 feet.

**Price, 18 to 24 in. — \$2.95 each;
2 for \$5.25.**

**Ready to Bloom — 2 to 3 ft. —
\$4.25 each; 2 for \$7.25.**

MAGNOLIA SOULANGEANA

Red Flowering Quince

Scarlet flowers in April and May. Grows 6 to 8 ft. One of the most attractive spring blooming shrubs; blossoms always large, flowering in great masses just as the leaves are coming out. Foliage a dark glossy green.

**Well rooted, 18 to 24 in. bushes.
Each 70c; 3 for \$1.95.**

JAPANESE FLOWERING QUINCE

Red Flowering Dogwood

This shrub-like tree is covered in May before the leaves appear, with a mass of lovely flowers varying from blush-pink to deep rose. A beautiful shrub or tree (grows to about 20 feet) of many uses — singly or in border plantings. Grows in sun or shade; leaves well colored in fall. A gorgeous, graceful, flowering tree!

2-3 ft. trees, \$2.50 each; 2 for \$4.65

3-4 ft. trees, \$3.15 each; 2 for \$5.65

White Flowering Dogwood

The same type flowering tree as the pink variety but with the familiar large white flowers in May. Plant some of each for their full flower beauty.

2-3 ft. trees, \$1.25 each; 2 for \$2.25

3-4 ft. trees, \$2.15 each; 2 for \$3.85

Colorful Hardy Phlox

Specially Selected Plants That Will Bloom This Summer

These newer varieties grow more thriftily, have larger more brilliant flowers during July, August and September. Pick off faded flowers and seed pods to keep new blooms coming. Plant about 18 inches apart in good garden soil — sunny location preferred.

BLUE BOY — A fine new Phlox. Rather low growing. Flowers broad spreading.

FLASH — A fine new crimson-red.

SPECIAL OFFER
6 Big Plants
One Plant
of Each
Variety **\$1.65**

LILLIAN — Lovely soft pink flowers, in large head of bloom. Tall growing.

MARY LOUISE — Finest white known. Late bloomer.

RUBY LEE — Mammoth flowered reddish-purple with a distinct appeal.

SPITFIRE — A new phlox. Brilliant orange-scarlet.

Superior, heavy-rooted, field-grown 2-year plants — ready to bloom. Each 40c; 3 for \$1.00; 12 for \$3.00.

BUDDLEIA or Summer Lilac

also called **BUTTERFLY BUSH** — A gorgeously brilliant summer display of color over a period of several weeks. Keep old blooms cut and new ones take their place. Roots are hardy although tops die down in winter.

ROYAL RED — A new, long-flowered buddleia of striking wine-red color. Tall grower to 5 to 6

feet. Blooms from July to frost. Strong, 2 year field grown plants — 75c each; 3 for \$1.95.

PINK CHARMING — Beautiful pink sprays — often 10 to 12 inches long.

DUBONNET — Rich red, solid well formed spikes.

ILE DE FRANCE — Dark purple, extra long blooms. Strong, 2 year field grown plants. Each 65c; 3 for \$1.75.

THOMAS BLACK WALNUT

CHINESE CHESTNUT

AMERICAN BUTTERNUT

Hardy Nut Trees

Beautiful for Shade — Profitable for Crops

Nut trees are low in cost, easy to grow and make beautiful shade trees. Why not grow those nuts you know and enjoy so much?

THOMAS BLACK WALNUT—A greatly improved black walnut. Bears heavy crops of unusually large nuts that are especially thin shelled and easy to crack. Deliciously flavored kernels, easy to get out. Tree is hardy and often bears second or third year after planting. A fast growing valuable shade tree. Declared one of the best black walnuts by such authorities as American Fruit Grower magazine and N. Y. Expt. Station.

2 year, 2 to 3 foot grafted trees — \$2.15 each; 2 for \$3.75.

Big, Quick-Bearing, 4 to 5 ft. trees — \$2.95 each; 2 for \$5.25.

AMERICAN BLACK WALNUT—The typically American nut—favored in every home. Always a dependable bearer of large, well-filled, rich flavored nuts.

Sturdy 2 yr., 2 to 3 ft. trees — 65c each; 2 for \$1.10.

AMERICAN BUTTERNUT—This hardy native tree produces heavy annual crops of rich, plump, white-meated, sweet flavored nuts. A good long lived shade tree growing well in moist soil.

Good rooted, 2 yr., 2 to 3 foot trees—75c each; 2 for \$1.45.

HARDY ENGLISH WALNUT—Now you can grow this favorite Christmas-time nut in more northern locations. These Hardy English Walnuts grow successfully from Canada through the middle west. The tree is different, unusual and a good shade tree. Nuts are large, thin shelled, well filled, delicious.

Sturdy 2 yr., 2 to 3 ft. trees—\$2.25 each; 2 for \$3.95.

CHINESE CHESTNUT—This blight resistant Chestnut makes it possible to again grow these delicious nuts everywhere. The nuts, borne 3 to 5 in each bur, are large, full flavored, delicious. A feature of Chinese Chestnut is its rapid growth and early bearing—trees often bearing in the nursery.

Well grown, 3 yr., 2 to 3 ft. trees—\$1.45 each; 2 for \$2.60.

AMERICAN FILBERT (HAZEL NUT)—The familiar, sweet nut in nursery grown stock much improved for nut size and quick growth. Use it as an ornamental shrub (grows to 5 to 7 feet) and have a big nut crop too.

2 yr., 2 to 3 ft. trees—\$1.10 each; 2 for \$1.95.

ENGLISH WALNUT

AMERICAN FILBERT

Giant Cultivated Blueberries

Genuine cultivated Blueberries produce big yields of giant size, deliciously sweet berries, three to four times the size of wild kinds. Now every garden can have enough of this healthful fruit for canning and pies. Plant 2 to 6 bushes. Last a lifetime and yields vary from 3 to 9 quarts per bush depending on age.

RANCOCAS. EARLY. Hardy, vigorous, productive; very large, firm berries of excellent sweet flavor.

STANLEY. MIDSEASON TO LATE. Sweet and delicious blueberry flavor. One of the finest and largest. Heavy crops of big, blue-tinted berries borne in clusters. Unusually upright, vigorous, well-shaped bush. Stanley is a newer, most satisfactory sort.

JERSEY. LATE. Largest of 10 leading kinds, of fine appearance and average yield. Jersey is one of the best cultivated blueberries. Strong sturdy bushes.

RUBEL. VERY LATE. Hardy, vigorous and very productive, upright grower; large, extra firm berries of good quality. Recommended for commercial use.

Satisfactorily grown on sandy or muck soil strongly acid and well supplied with water. Soil not acid can be made so by mixing in acid peat, rotted leaves, or humus. Plant 5 to 7 feet apart.

Plant a Half Dozen Blueberry Plants and Have Blueberry Pie.

PLANT BALDWIN'S APPLE

Ours are guaranteed true-to-name, well rooted, quick-growing trees. These are high quality, proven value varieties, best adapted to eastern, middle-western and northern soils and climates. There is real pleasure and a big saving in having two or three trees of each fruit right in your garden. As a commercial proposition, apples are always in profitable demand. *Prices on Page 25.*

Jonathan — (A) *LATE FALL*. Sold in every store. Glossy red; fine grained; juicy flesh, excellent flavor. Medium to large size. Unusual keeper (to February) makes it a most profitable commercial apple. Quick to bear and easily grown in practically every fruit section. Jonathan is first choice in many homes.

Wealthy — *FALL*. Heavy yearly bearer. Hardy, long lived. Attractive, brilliant, red striped; superior quality, wine-like flavor. An all-round apple for eating, cooking, cider and market.

Northern Spy — (B) *WINTER*. The old, well known favorite. Delicious juicy flavor; excellent for eating and cooking. Brilliant streaked red color. Always in demand; good prices; long keeper.

Stayman's Winesap — (C) *LATE WINTER*. Best Winesap. Extra large, bright red, crisp, juicy with a wonderful zestful flavor. Stayman easily leads all other Winesaps. Heavy bearers and big money-makers everywhere.

Yellow Transparent — *EARLY FALL*. Has proven both popular and profitable. Fruit large yellow with crisp sub-acid flavor. Heavy annual bearer; well known everywhere.

Yellow Delicious — (D) *LATE FALL*. This beautiful apple has the distinctive shape and big size of Red Delicious with an added deliciousness and mildness of flavor that is unsurpassed by any apple. Flesh solid, crisp and full of juice; its rich golden-yellow, firm smooth skin gives it a luscious appearance. This highest quality apple is always in demand and brings top prices.

Red Delicious — (E) *DOUBLE RED*. Winter. Known world over. Brilliant dark red, shading to yellow at blossom end. Large to very large; white tender juicy flesh. Wonderfully rich sub-acid flavor — truly delicious. Ships without bruising, makes a wonderful appearance, commanding top prices. Comes into bearing early.

Cortland — *WINTER*. Many customers have asked us for this newer apple and we are glad to supply them. Cortland is an excellent, early bearing, long keeping McIntosh type. Large fruit streaked with bright red and yellow. One of the best commercial sorts.

Rome Beauty — *LATE WINTER*. Excellent home use and baking apple. Deep red color over yellow — a handsome apple. Thick, firm skin stands handling remarkably well, makes it one of the best late winter keepers. A leading Ohio commercial variety. Tree bears very young.

Anoka—*HAVE APPLES THE SECOND YEAR.* Bears on one one year old growth and bears annually. Ripens in August; very heavy bearer; fruit red stripes over yellow; fine cooking quality, short keeper. Does best in central and northern sections.

McIntosh—*WINTER. A MONEY-MAKER TODAY.* Juicy snow apple—white, crisp flesh; beautiful solid crimson color. Excellent quality—winelike, true apple flavor. Good annual bearer. Rapidly increasing popularity among consumers everywhere makes good prices certain. One of the most profitable apples.

Grimes Golden—*WINTER.* Favorite mild eating apple. Excellent keeper, uniform shape, typical dull gold color. Hardy productive tree. Carefully selected and grafted trees insure satisfaction with this fine apple.

McINTOSH

Baldwin—*WINTER. AN OLD FAVORITE.* The Baldwin Nursery began 63 years ago and the Baldwin Apple is about 210 years old — both old enough to be proved dependable. The Apple is still widely known and grown in the great Michigan and New York apple sections. It is medium size, rich dark red, juicy. It is hard to beat for home use and long keeping. It has a flavor and quality all its own.

Red Astrachan—*BEST EARLY SUMMER.* Well known old sort, preferred by many because of its earliness and all-round excellence. Large, round, crimson apple; rich juicy, excellent eating and cooking early apple. Tree is vigorous and productive.

Crab Apples

Dolgo—*STRIKING, DAZZLING RED, NEW CRABAPPLE.* Unbelievable heavy bearer; free from blight. Jells quickly even when fully ripe. Good to eat fresh. Beautiful hardy trees, thrive everywhere. Called the "Perfect Crab." Its lustrous green leaves and mass of pink blossoms make it ideal for lawn planting.

Hyslop—*EXCELLENT COMMERCIAL VARIETY.* Enormous crops of round, firm apples — color a dark, red-purple when fully ripe. Long lived, hardy tree.

PRICE OF CRABAPPLES — same grades and prices as above.

DOLGO

HALE HAVEN

RED HAVEN

Ripens 30 Days Before Elberta

This new Michigan Expt. Station peach is another most profitable early commercial variety. Outstanding in shipping qualities — it is of good size, red color, firmness, dependable crops. Its size, fine sweet flavor, yellow fine-grained flesh and free-stone pit make it equally excellent for home use.

Redhaven is usually completely covered with brilliant red. Very heavy producers — thinning often needed. Fruit buds hardier than Elberta. You should have Redhaven for a fine extra early peach.

Most Popular

HALE HAVEN

Mid-August

Wonderful new peach with great size and beautiful color of J. H. Hale and earliness of South Haven. A better peach of richest flavor; yellow flesh firm and juicy. Better shipper than South Haven; always freestone; bears every year. Hale Haven is one of the best and its sale shows a far greater increase than any other kind. Brings more money. Ripens 15 to 20 days before Elberta and is second only to that grand variety in popularity and profits.

NEW *Fairhaven*

PEACH

A Large, Firm, Dependable Early Producer

Fairhaven is a greatly improved heavy bearer of medium large fruit with high average annual production. Ripens early, between Redhaven and Halehaven. Trees are robust and will withstand winter injury. Fruit is nearly round, bright gold with attractive bright red cheek. Flesh is free-stone, yellow and red at the pit. Exquisite flavor. It is a firm peach and a good early-season shipper. Originated, tested and introduced by the Michigan Agri. Expt. Station; a cross of J. H. Hale and South Haven. A valuable commercial variety in its season and a popular addition to every home orchard.

ELBERTA Sept. 1

Planted by Thousands

Standard commercial peach. Plant Elberta and be sure of a crop. Large to extra large. Free-stone. Golden flesh, red at the pit, firm, juicy. Has no equal as a prolific bearer and shipper.

Elberta is the best known peach and is probably more widely planted than any other. Many varieties come and go but Elberta is always dependable for a good crop of fruit.

Peach Varieties

BIG LATE RED

Mid-September

Ripens about 10 days after Elberta. Fruit is large, bright colored, rich flavored, golden yellow with deep red blush. Freestone, firm and a good shipper. Tree is hardy, a good pollinizer and a heavy bearer.

J. H. HALE

Late August

First in Size, Color, Quality

Yellow, thick skin, colors to a rosy tint. Deep yellow, fine grained very firm flesh — delicious flavor. A beautiful peach, fresh or canned. In size, color and quality, no peach compares with Hale. Always brings \$1.00 to \$1.50 more per bushel.

BIG LATE RED

GOLDEN JUBILEE

GOLDEN JUBILEE

Early August

Large, very attractive, orange-yellow fruits, with pink cheeks; always freestone; Elberta type but milder in flavor. Popular for home canning. Its size, color and quality bring high prices on local markets.

PERFECT HALE

Mid-September

A perfect flowering new variety of the Elberta type but larger, rounder and has the distinctive Hale flavor. More highly colored than Elberta, yellow flesh, freestone. Perfect Hale ripens just after Elberta to continue the picking season. With very firm big fruit, sure crops and unusually hardy tree it can be depended on to make money every year.

WHITE HALE Large — Delicious Freestone

Immense size of fruit together with extreme winter hardiness and high quality make White Hale a superior white peach. Produces crops every year often in spite of frosts. "Honey sweet" describes its flavor. Fruit is juicy and freestone. Well adapted for profitable roadside trade or nearby market.

Special Prices: \$1.35 each; 3 for \$3.75; 10 for \$11.75

WHITE HALE

BALDWIN'S DeLuxe Pear Trees

Seckel—THE OLD FAVORITE "SUGAR PEAR" EARLY FALL.

Always in market demand and equally valuable for home use. Medium sized pear; ripens late September. Delicious flavor and quality—sweet as candy. Every garden should have a Seckel.

Bartlett—SUMMER. KNOWN FOR QUALITY.

One of the best known and popular varieties for both commercial and home orchard planting. Golden color with red streak, mellow and indescribably delicious both fresh and canned. Heavy bearer.

Campas—FALL. This better pear is an improved Kieffer; larger, yellower, more richly flavored and of finer texture. A good winter pear, long keeping, excellent for storage. White, crisp, aromatic flesh. Trees grow well and are heavy, regular bearers.

Clapp's Favorite—SUMMER.

Ripens 7 to 10 days before Bartlett and like that famous pear, is of excellent flavor, large size and fine quality, for home use. Red blush over yellowish-green skin; good shipper; early high prices. Vigorous, productive tree.

Flemish Beauty

"SEPTEMBER SWEET"

"September Sweet"—would describe this pear as its flavor is very sweet and ripens in September. Medium to large size; color a pale yellow with red-brown cheek; fine grained juicy flesh. Tree is hardy, vigorous grower and lives a long time.

Bosc—THE LONG KEEPER, LATE FALL

The ideal long-keeping pear. Fruit beautiful golden russet, very large size. Flesh is white, juicy and a delicious, delicate pear flavor—a real winter time treat. Tree is vigorous and hardy, bears young. A favorite West Coast pear because it ships so well!

SWEET CHERRIES

BLACK TARTARIAN

Black Tartarian — SWEET.

Best known black sweet. Extensively planted and prolific. Regular bearer of big, black juicy, sweet fruit. Hardy, vigorous. Best and most profitable black sweet cherry—for market and home.

Schmidt's Bigarreau — SWEET.

Newer sort. Unusually hardy. One of the best late sorts, especially in Northern sections. Largest size, firm fruit; deep red to mahogany. Brings best prices.

Windsor — SWEET.

Liver colored large cherry, wonderful flavor. Originated at Windsor, Canada. Hardy prolific tree. Valuable for market or family use.

Hansen Bush Cherry

(See Page 32)

Fruit as delicious as sweet cherries; makes excellent Jell and Jam.

NAPOLEON-YELLOW

Napoleon — Yellow

SWEET. OLD-TIME FAVORITE.

Succeeds practically everywhere. Heavy bearer of large light yellow heart-shaped fruit.

SOUR CHERRIES

Montmorency — Known and grown everywhere. Ripens late in June and is best sour cherry for market. Makes delicious pies; fine for canning. Fruit larger than Richmond; bright red, acid flavor. **GROW MONTMORENCY FOR THE CANNING MARKET.**

Early Richmond — UNEXCELLED FOR COOKING

One of the most popular sour cherries, unexcelled for cooking. Dark red, tart, and juicy. Hardy trees uninjured by cold. Big crops.

MONTMORENCY

Quince

ORANGE — BEST OF ALL QUINCE. Regular annual bearer of fine, large, rich yellow, aromatic fruit. Makes delicious jam and quince "honey". Trees hardy in most all sections. Begin bearing very young and produce large crops.

PRICE: 1 yr. 7/16 in., 3-4 ft., Each \$1.75; 2 for \$3.15.

ORANGE QUINCE

BALDWIN'S *Finest Hardy Plums*

Stanley Prune — *FINEST PRUNE TYPE PLUM.* The best new early plum—early August, 10 days before German Prune. Fruit largest size, dark bluish purple, freestone, fine grained, tender, juicy and sweet. Firm and does not crack. Does not fall when fully ripe. Excellent quality for cooking or eating. Produces heavy full crop every year; often bears in 3 years.

Yellow Egg — *BEST YELLOW PLUM. EXTRA LARGE FRUIT.* Clear yellow egg shaped. Sugar-sweet, rich, juicy and melting. Fine for table or canning use. Hardy productive tree. Ripens August.

Green Gage — *THIS ROUND, GREENISH-YELLOW* plum has about the sweetest flavor of all. Every housewife wants Green Gage for canning and preserving. Medium size, full of juice, unusually heavy bearer. Always sells well. Ripens late September.

Burbank — *DELICIOUS TABLE PLUM.* Hardy Japanese variety free from black knot. Deep red color, unusually delicious flavor. Keeps three weeks after ripening. Ripens August 15 to Sept. 1.

Monarch — *THE FAVORITE PURPLE PLUM*—Medium to large, round fruit; juicy golden yellow flesh. The tree is hardy, bears early. Always sells well on the market and is excellent for eating and canning.

Blue Damson — This is the little, blue, solid plum that is so highly prized by every housewife as the finest plum for preserving. Exceptionally vigorous, hardy and disease-free tree bears enormous crops that do not get overripe or drop. Wonderful shipper. Always in demand at top prices. Shropshire Damson—the best quality, heavy yielding strain.

PERFECTION APRICOT

Apricots

Apricots are quite hardy—about like standard plums. Two or more trees should be planted to provide full pollination.

Perfection

This new golden-yellow apricot is the finest variety today. Its size is about like a medium peach and ripens evenly. Flavor is delicate and delicious, melting in sweetness when picked fully ripe from the tree. Tree is unusually hardy, vigorous, productive. It is well named —“Perfection”.

Grow **BALDWIN**
Grapes for
Greater
Profits

CONCORD THE UNIVERSAL BLACK GRAPE Always in good demand — the standard by which all other black grapes are judged. No vineyard or arbor is complete without Concord. Best for market, eating and home use.

It is the main crop for every grower everywhere and produces big crops on any soil every year. After the first expense the cost of up-keep is but little. It is a profitable permanent investment. Our Concord vines are well rooted, especially adapted to the central west, and guaranteed to reach you in perfect growing condition.

NEW FREDONIA A BETTER EXTRA EARLY BLACK FREDONIA ripens 10 days before Moore's Early and 3 weeks ahead of Concord. Berries are very large, hang well to the bunch and are firm, juicy and of fine flavor. Skin is thick and tough to make a good shipper. Vine is vigorous and productive with medium size very compact bunches.

Early grapes make the most money and FREDONIA is a fine quality extra early far ahead of any other early kind now on the market. The bunches keep their vine-fresh firmness and fine appearance for days after picking. Begin your planting this spring.

NEW CACO—(Red) Caco is A-1 in every respect. Hardy, quick bearing, produces every year; fruit beautiful, unusually large size, clear amber color and best of all has a flavor of such sweetness it is a superior table grape. Always in demand at grape markets with extra prices. Vines just as easy to grow as any other.

NIAGARA—(White) BEST WHITE GRAPE FOR EVERY PURPOSE The best known and most popular of all white grapes, ranks with Concord in heavy bearing, size and quality. Medium compact, large bunches; berries mostly round, of greenish-white color; very juicy and of excellent flavor, skin is thin but tough and does not crack, making it a fine long-distance shipper. Hardy, vigorous grower.

PORTLAND—(White) FINE EXTRA EARLY GRAPE. Similar to Niagara in its large size bunch and full oval berries, Portland ripens three weeks earlier. Production is heavy, young vines bear early and bear good crops every year. Berries are of good size, fine and sweet in flavor. Vines entirely hardy. Introduced by N. Y. Expt. Sta. and is proving an excellent profitable grape because it ripens so early and its quality is so good.

DELAWARE—(Red) Long called the standard of excellence of all grapes as a table delicacy. Bunch small, compact; berries small with thin skin and of unusually sweet flavor. Ripens with Concord. Hardy. It is impossible to tell you how really delicious these little red grapes are.

CONCORD

NEW SENECA
Skinless —
Golden Yellow —
Sugar Sweet

This is the newest of the California-type hardy grapes and one of the finest flavored in any color! The oval-shaped fruit is golden yellow, with firm meat, juicy, and a deliciously sweet flavor—and the skin is edible! Long, compact, medium size bunches. Perfectly hardy wherever other northern grapes grow. This is one of the early grapes — ripening here in September.

NEW VAN BUREN
Extra Early Black

An extremely early grape of superior quality, similar in flavor to the well-known delicious Concord. This variety was introduced by the N. Y. Experimental Station and is one of the best early blue grapes yet produced. Ripens in mid-August, even earlier than Fredonia. The vines are extremely hardy and produce an abundance of good size, sweetly delicious fruit. Thoroughly tested in grape growing sections and highly recommended for commercial planting.

FRENCH PUSSY WILLOW

SPIREA VAN HOUTTEI

DOUBLE KERRIA JAPONICA

BALDWIN'S *Hardy Shrubs*

All our shrubs are field grown, heavy, well rooted and branched. They will make a good growth and fine showing quickly. Sizes are selected to give best satisfaction at reasonable cost.

FRENCH PUSSY WILLOW—In early spring this tall compact shrub with its long, silky grey catkins covering the branches before the leaves start, is always a welcome sight. Cut its stems for bouquets just as the snow is leaving.

Well rooted, 18 to 24 in. bushes, 65c each; 3 for \$1.65.

HANSEN'S BUSH CHERRY—The fruit of this fine ornamental shrub is good to eat. Fruits are large as the average cherry; have a new, delicious flavor; excellent fresh and for jam and jelly. White flowers in spring, red and gold foliage in autumn. Hardy everywhere, grows to about 4 to 5 ft.; bears immense crops annually.

2 yr. 18-24 inch — Each 65c; 3 for \$1.65; 6 for \$2.95. 3 yr., Bearing Size — Each 85c; 3 for \$2.25; 6 for \$3.95.

BEAUTY BUSH—(KOLKWITZIA AMABILIS) Famed for its beauty. Covered early in May with a profusion of small, bell-shaped, clear pink blossoms, marked with brownish spots and veins. A tall growing, graceful, hardy bush.

Sturdy, 18 to 24 in. bushes — Each 75c; 3 for \$2.10.

SPIREA VAN HOUTTEI—BRIDAL WREATH. One of the most beautiful and popular of flowering shrubs. In May and June the slender branches droop and form a veritable fountain of snowy white bloom. Thrives anywhere, in shade or sun, wet or dry; grows to 6 to 8 ft. A beautiful ornamental hedge.

18 to 24 in. bushes—Each 25c; 3 for 65c; 6 for \$1.20; 12 for \$2.00; 25 for \$3.75.

KERRIA JAPONICA—A slender, branching shrub of great beauty. Branches are covered in June with many very double, round, bright yellow, rose-like flowers. The leaves are thick, dark green and deeply notched. Bush is thick in growth from 4 to 6 ft. high.

Strong, 18-24 in. bushes, 75c each; 3 for \$2.10.

ZABEL'S RED BUSH HONEYSUCKLE—A larger flowered, real red honeysuckle. Red berries follow the flowers. Medium height bush thrives in most any location. A newer, better bush honeysuckle.

Well branched, 18 to 24 in. bushes, 65c each; 3 for \$1.65.

MOCK ORANGE VIRGINALIS—A magnificent new variety. Medium height, compact bush. The flowers (single, semi-double and fully double) are the largest and most sweetly fragrant of any variety, with longest early blooming season.

Strong, 18 to 24 in. bushes, each 70c; 3 for \$1.90.

ZABEL'S RED BUSH HONEYSUCKLE

MOCK ORANGE VIRGINALIS

RED BUD

HYDRANGEA P. G.

Beautify Your Home

RED BUD

— CERCIS CANADENSIS

This picturesque, low growing tree is covered with tiny, rose-pink flowers outlining each branch and twig in May before the leaves appear. The appeal of its graceful pink shape among the soft greens of early spring is long remembered. Just right for lawn planting. Grows well in shady or moist places.

Sturdy little trees, 2 to 3 ft., 75c each; 2 for \$2.10. 3 to 4 ft., \$1.50 each; 2 for \$2.75.

PINK FLOWERING ALMOND

Upright grower, 3 to 4 ft. Long branches are thickly studded with small double, delicate pink flowers over their full length, before the leaves appear. Blooms in April.

Well grown, 18 to 24 in. bushes; Each 75c; 3 for \$2.10.

PAUL'S SCARLET THORN

Rich scarlet to crimson flowers are very double and born in masses among the branches, making a brilliant display, either when planted alone or in groups. Grows as a small tree in shape and is a really choice addition to any planting.

Selected, 3 to 4 ft. trees, \$2.25 each; 2 for \$3.95.

HYDRANGEA P. G.

This showy shrub is perfectly hardy. Large clusters of pure white blossoms, later turning soft pink, from August to late Fall. Superb either singly or in groups; often used as a hedge.

Sturdy, 18 to 24 in. Bushes; Each 75c; 3 for \$2.10.

NEW ALMEY CRAB

(See Front Cover)

A new and different Flowering Crab. Its blossoms are almost single, wide open, and glistening crimson red. White markings at the base of each petal give the effect of a five-sided star. Often blooms when two years old. Older trees covered with flowers look like a mass of flame. You will want this new beauty in your garden.

Price — 4 to 5 ft. trees — each \$2.65; 2 for \$4.95.

FORSYTHIA INTERMEDIA

GOLDEN BELL. Earliest shrub to bloom. Bright yellow flowers seem the spirit of Spring, opening before the leaves appear. Grows to 6 to 8 ft. but may be pruned as desired. Branches slightly drooping. Dark green leaves.

Well branched, 18 to 24 in. bushes, Each 65c; 3 for \$1.65.

WEIGELA EVA RATHKE

WEIGELA EVA RATHKE

CRIMSON

3½-4 ft. June flowering. Of smaller growth than the other Weigelas; decidedly spreading. A profusion of flowers brilliant crimson with white throats is its outstanding characteristic. It is especially showy.

Price — Each 70c; 3 for \$1.95.

FLOWERING ALMOND

PAULS SCARLET THORN

FORSYTHIA

Choice Ornamental

RED DOUBLE FLOWERING PEACH

There is a place in every garden and lawn for one or more of these beautiful ornamental trees. In May every branch is covered with clusters of large, wide open, peach blossoms really red in color. These blooms among the bright green, graceful peach leaves make a gorgeous sight.

Well branched, 3 to 4 ft. trees, \$1.35 each; 2 for \$2.45.

MOUNTAIN ASH

(European)—This slow growing ornamental tree is full of interest with its graceful, lacy, fern-like leaves and its clusters of brilliant orange colored berries from mid-summer to winter. Satisfactory grower in most soils, prefers some sun. Mature height 20 to 30 feet.

Well branched, 3 to 4 ft. trees, \$1.45 each; 2 for \$2.60

SPIREA ANTHONY WATERER

WHITE SNOWBERRY

A different shrub. Low and spreading growth with small pink flowers and waxy green leaves make it attractive in summer. In winter it is covered with clusters of white waxy berries. Good growth in shade.

Strong 18 to 24 in. bushes, 65c each; 3 for \$1.65.

SPIREA BILLIARDI ROSEA

This low growing shrub reaches only 4 to 5 ft. Long 5 to 7 in., fuzzy, rose pink flowers in profusion in July and August and a few later, make this Spirea an unusual ornamental shrub.

Selected 18 to 24 in. bushes, 75c each; 3 for \$2.10.

JAPANESE SNOWBALL

A fine, improved snowball with fully round white flower balls. Slow grower, long lived. Attractive deep green, crinkly foliage on a spreading bush 6 to 8 ft. high. Have one of these new and better bushes of this old favorite shrub in your yard.

Heavy 18 to 24 in. bushes, 90c each; 3 for \$2.50.

SPIREA ANTHONY WATERER

Growing only 8 to 24 inches, this compact, hardy shrub is just right where a low, colorful plant is needed. Flat clusters of pink—white flowers cover the bush in July and some bloom continues into fall.

Well rooted 15 to 18 in. bushes, 75c each; 3 for \$2.10.

Hardy Shrubs and Trees

SMOKE TREE

Purple Fringe

This is a picturesque and unusual small hardy tree. Dense green foliage is covered in summer with masses of very tiny purple flowers giving the appearance of a dense cloud of smoke. Grows best in dry sunny spot. Colorful autumn foliage.

Well grown 18 to 24 inch bushes, 75c each; 3 for \$2.10.

ALTHEA

Rose of Sharon

Showy, double blooms from summer through fall on an upright many-branching bush. Grows from 6 to 8 feet tall. Plant an Althea in a sunny spot and you have a lovely flowering shrub. You will be delighted with this improved strain of this old favorite. Colors: Red, White, Pink.

Each 65c; 3 for \$1.65

CALYCANTHUS

Sweet Shrub

Curly, sweet-scented, brownish purple flowers born in the center of leaf clusters are most unusual. The large green leaves — deeply veined — help still more to give it an unusual appearance. Grows 5 to 7 ft. high.

Nice 18 to 24 in. bushes, 70c each; 3 for \$1.95.

COTONEASTER DIVARICATA

A newer ornamental shrub particularly attractive because of its waxy, bright green leaves and its clusters of small, pink flowers along upright yet widely, spreading branches. Blooms from June to September, followed by small bright red berries that keep their color for a long time. 6 feet tall. Leaves turn a colorful red in autumn.

Sturdy 18 to 24 in. bushes, 75c each; 3 for \$2.10.

TAMARIX HISPIDA

Silver Foliage Tamarix

Fine, graceful, feathery, silver foliage on long curving branches. Long panicles of bright pink flowers during June and July. Hispida continues to bloom longer than other varieties. Hardy bush; grows to 12 to 24 ft. One of the best.

Choice 18 to 24 in. bushes, 75c each; 3 for \$2.10.

PINK HONEYSUCKLE

PINK TARTARIAN HONEYSUCKLE

The always hardy, rapid growing, dependable shrub where a high hedge or any tall planting is wanted. Grows 8 to 12 ft. high; leaves are a glossy green. Covered in April and May with small pink flowers, followed from July to frost with bright red berries. Birds like them.

Strong, 18 to 24 in. bushes, 60c each; 3 for \$1.55.

TAMARIX HISPIDA

Twelve Superb Glads

Choice Gladiolus Varieties Provide Gorgeous Brilliant Flowers Through July, August and September

BLUE BEAUTY — A most popular blue. Wonderful even blue, shading darker toward the edges. Wide open flowers. 3 for 35c; 6 for 60c; 12 for \$1.10; 25 for \$1.95.

ELIZABETH THE QUEEN — A royal gladiolus. Giant size. Finest beautifully ruffled lavender. Clear mauve with darker throat lines. Each 20c; 3 for 50c; 6 for 85c; 12 for \$1.50.

LANTANA — Large. Early. Orange shading to salmon with a golden throat. A beautiful and distinctive bright vivid color. Well placed blooms on medium height stem. 3 for 30c; 6 for 50c; 12 for 90c; 25 for \$1.65.

MISS WISCONSIN — A newer beautiful rose-pink gladiolus. Large. Late-midseason. Opens up to 8, five-inch florets on an 18 bud spike. A lovely flower. Each 20c; 3 for 50c; 6 for 85c; 12 for \$1.50.

PICARDY — Soft shrimp pink, large flowers. America's favorite glad. 3 for 25c; 6 for 45c; 12 for 80c; 25 for \$1.50.

RED CHARM — Early mid-season. Medium shade of deep red that is very attractive. 8 to 9 large blooms on a tall straight stem. 3 for 30c; 6 for 50c; 12 for 90c; 25 for \$1.65.

SALMAN'S GLORY — A creamy white with distinct red markings on creamy-yellow blotch. 6-8 large flowers open at one time on strong stem. 3 for 35c; 6 for 60c; 12 for \$1.12; 25 for \$1.95.

SILVER GULL — Silver bluish-grey with a creamy blotch. Very distinct. Large wide open flowers on a tall elegant stem and blooming as many as 8 at a time. A strong grower. Each 20c; 3 for 50c; 6 for 85c; 12 for \$1.50.

SPOTLIGHT — Large. Mid-season. Clear medium deep yellow with small scarlet blotch in throat. Opens up to 7 florets on long slender stem. By far the best deep yellow. Each 20c; 3 for 50c; 6 for 85c; 12 for \$1.50.

TIVOLI — A soft, clear rose-pink, lighter in throat. 8 to 10 large florets open at one time, on tall upright stems. Blooms are well placed. Each 20c; 3 for 50c; 6 for 85c; 12 for \$1.50.

VALERIA — Large. Bright red of distinctive shade. Opens 5 to 7 large nicely ruffled blooms at a time. One of the very best cutflower varieties. 3 for 30c; 6 for 50c; 12 for 90c; 25 for \$1.65.

WHITE GOLD — Very large clear light cream shading to a golden throat. Huge well placed blooms open on a long head. Amazing spikes of bloom. 3 for 25c; 6 for 45c; 12 for 80c; 25 for \$1.50.

INSTRUCTIONS FOR ORDERING — PLEASE READ CAREFULLY

LOCATION — Bridgman, Berrien County, South-western Michigan — the heart of the "Michigan Fruit Belt" on Lake Michigan. Fast service to Chi-cago trunk lines east, west, north, south.

EXPRESS SHIPMENTS — All shipments insured. Rapid handling and safe delivery guaranteed. Be sure there is an Express office at destination you give. Charges not prepaid.

PARCEL POST SHIPMENTS — See Table Below — This gives approximate postage figured on estim-ated weight of stock when packed. Locate the group in which you live and then figure amount of postage to send from table below. Cheaper for small orders. Prompt delivery to your door. If you request mail shipment, but include no postage in your remittance we will ship C.O.D. for exact postage required. If you want mail shipment, be sure to include postage and save the extra C.O.D. and Money Order fees which amount to at least 40¢.

SHIPPING SEASON — SPRING — From about March 15th to May 25th, according to season. **FALL** — October 15th to November 15th.

PACKING — No charge. All plants packed in damp moss or shingle tow. Will keep in good condition 5 days to 2 weeks, according to time of shipment and weather conditions. Each variety carefully separated and correctly labeled.

SUBSTITUTION — Not without your permission except on late orders when time is often saved by substituting varieties of same season and value as those ordered. Satisfaction guaranteed on substitutions.

HOW TO ORDER — Write your name and address plainly on this order blank. Indicate "Mail," "Express," or "Our Judgment," as you prefer. If express shipment, be sure there is an express office at the destination you give. Send remit-tance. All orders acknowledged.

Please Note — Because of state regulations, we are sorry we cannot ship peach, apricot or plum trees to Arizona, California, Idaho, Oregon, Washington; No cherry to Idaho.

TERMS — Orders of \$5.00 or less, please send cash with order; if more than \$5.00, you may remit 25 per cent of total with order, balance before shipment if you prefer. If you request, we will make C.O.D. shipments up to May 1st, when 25 per cent of total amount is sent with order; no discount allowed.

REFERENCE — The State Savings Bank, Bridgman, Michigan, Express Agent or Postmaster, Bridg-man, Michigan.

COMPLAINTS — All complaints as to condition on arrival, shortage, or errors must be made within five days after stock is received. This allows ample time to examine shipments and if there is anything wrong, advise at once. Com-plaints as to condition on arrival must be accom-panied by statement from express agent or post-master, certifying as to extent of damage.
